HARC Air Quality Research: Providing the Data Needed

In last month's newsletter, we announced HARC's partnership with [Air Alliance Houston](#) to collect data along the I-45 corridor. As Houston and the surrounding region grapple with air quality issues, we look forward to continuing work with local partners and stakeholders to help find real-world solutions to our air quality challenges. [\[READ MORE\]](#)

[Recent News](#)

Air Quality Research

HARC's work in air quality research and management includes air quality modeling, emission reduction technologies, emissions monitoring technology and policy. [Read more here.](#)

Clean Energy Research

HARC has funding from the U.S. Department of Energy (DOE) to assist public and private entities considering Combined Heat and Power (CHP). Interest in CHP at your site? [Please fill out this short survey](#) to see if CHP may be a good fit for your facility.

Geospatial and Analytics

HARC has taken delivery of high-accuracy LiDAR data flown in 2018 for the greater Houston-Galveston region. For more information about conducting a project with HARC using the LiDAR data, [visit our webpage.](#)

Resilience Research

Recently HARC published a Green Paper in response to funding resilience in the greater Houston region. The paper highlights strategies for the public sector to fund recovery projects from natural disasters. [Download a copy of the report here.](#)

Water Quality Research

HARC is a partner with the [Double Bayou Watershed Partnership](#) - our work focuses on research analysis for Water Quality Management Plans. Join the community conversation and [visit us online to learn more.](#)
