## HARC Headlines

---

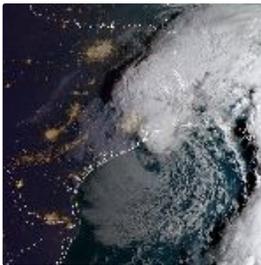

### **Headwaters to Baywaters (H2B)**

HARC, in collaboration with multiple partners, is studying the importance of preserving riparian corridors in the Houston-Galveston Region. The goal of H2B is to increase riparian conservation - providing multiple benefits to the Houston-Galveston region of the Texas Gulf Coast.

### **City of Houston's Climate Action Plan Update**

The development of the City of Houston's community Climate Action Plan (CAP) hit a milestone last month with the release of a draft of the plan. During an announcement and presentation by Mayor Sylvester Turner, he outlined the draft which is divided into four areas: building optimization, energy transition, materials management and transportation.

### **HARC's CARAT Project Accepted into Funding Incubator**

The Energy team, comprised of Ms. Marina Badoian-Kriticos, Dr. Gavin Dillingham, Dr. Stephanie Glenn, and Dr. Meredith Jennings had CARAT (Climate Analytics Risk Assessment Tool) accepted in **EPICenter's** incubator business startup program out of San Antonio.

## Message from the President

### **HARC: Summer Research Abounds**

HARC has been making the most of the summer months with launches of innovative projects and researchers traveling across the nation to share our body of work. As an applied research organization, HARC is uniquely positioned to provide impact through the lens of a science-based and data-driven perspective. We continue to engage with community stakeholders and decision makers on ways to better understand and implement sustainability practices. [\[READ MORE\]](#)

## HARC Research Recently Released on Lake Livingston

HARC and the U.S. Geological Survey (USGS) recently completed a Lake Livingston study for the Texas Commission on Environmental Quality (TCEQ)'s Galveston Bay Estuary Program, one of 28 National Estuary Programs. The purpose of the GBEP is to provide comprehensive ecosystem management through collaborative partnerships and to ensure the preservation of Galveston Bay's multiple uses.
