HARC

MONTHLY NEWSLETTER

HARC in the community: HARC researchers travel across the country sharing our program of work. Here, **Dr. Gavin Dillingham** presents on Combined Heat and Power (CHP). Funded by the U.S. Department of Energy, **HARC's DOE Technical Assistance Partnerships (TAP)** program promotes CHP technology solutions.

HARC Headlines

2019 Galveston Bay Report Card

How healthy is Galveston Bay? In partnership with the Galveston Bay Foundation, the fifth annual report card was released last month. [Read more about the health of the state's largest estuary here.](#)

Texas Residential Passive Survivability

Produced in partnership with the **Texas State Energy Conservation Office**, this tool assists Texas residents to build or maintain energy efficient and sustainable homes. Interested? Learn more about **a sustainable residential infrastructure here**.

HARC is hiring!

Join our team to work with a group of dedicated and passionate leaders. **HARC is seeking a Post-Doctoral Research Scientist – Air Quality Monitoring and Modeling**. This position is primarily responsible for performing and managing research and proposal development in support of projects pertaining to air quality.

Message from the President

HARC: From Research to Innovation to Action

HARC and its program of work bridges the worlds of scientific research and technological innovation in an inspirational way. Our team is nimble and tackles complex and large-scale projects through an efficient systems-approach. [\[READ MORE\]](#)
