## Team HARC: Leadership in Applied Research

The research team at HARC represents a broad spectrum of leaders with backgrounds in hydrological and life sciences, atmospheric chemistry, clean energy, transportation, urban planning, engineering, public policy and data analytics and visualization. The success of any research organization lies with its people and their ability to think critically, conduct objective analyses and connect with others on complex issues that matter most to society. [\[READ MORE\]](#)

By: Lisa Gonzalez

## Leadership in the Field

This past fall, Dr. Gavin Dillingham was selected to attend the second-annual Yale Sustainability Leadership Forum. During the 3-day event, he heard from leaders on emerging trends in sustainability and worked with cohort on an in-depth topical study. [\[READ MORE\]](#)
